Table 1

Urine Drug Test		Amphetamines (w/ MDMA)	Barbiturates	Benzodiazepines	Cannabinoids	Cocaine (THC)	Cocaine Metabolite	Zolpidem	Buprenorphine	Fentanyl	Hydrocodone / Hydromorphone	Methadone	Morphine / Codeine (Opiates)	Oxycodone / Oxymorphone	Tramadol	6-MAM (heroin)
		Panel	Toxicology, Urine Screen w/ or w/o Confirmation	•		•	•	•			•	•	•	•	•	
Toxicology, Urine Screen Cup w/ or w/o Confirmation	•			•	•	•					•	•	•			
Individual	Opioids, Urine Confirmation									•		•	•			If morphine >2000 ng/mL
	Barbiturates, Urine Screen w/ or w/o Confirmation		•													
	Buprenorphine, Urine Screen w/ or w/o Confirmation						•									
	Fentanyl, Urine Screen w/ or w/o Confirmation								•							
	Heroin (6-MAM), Urine Screen w/ or w/o Confirmation															•
	Tramadol, Urine Confirmation													•		
	Zolpidem, Urine Confirmation						•									

See Pain Management Drug Panel w/ or w/o Interpretation for medication compliance monitoring.

Table 2

Chemical name	Synonyms / Trade Names	
Amphetamines	Adderall, Meth, "speed"	
MDMA	Ecstasy, "X"	
Barbiturates	Secobarbital, Butalbital	
Benzodiazepines	Valium, Xanax, Ativan, Klonopin	
Cannabinoids	THC, marijuana, "pot"	
Cocaine & metabolites	"coke", crack, benzoylecgonine	
Zolpidem	Ambien	
Opioids	Buprenorphine	Subutex, Suboxone, Zubsolv, Butrans
	Fentanyl	Duragesic, Sublimaze, Actiq
	Hydrocodone	Lortab, Norco, Vicodin, Zohydro
	Hydromorphone	Dilaudid
	Morphine, Codeine	Tylenol #3, #4, MS Contin
	Oxycodone	Oxycontin, Percodan, Percocet
	Oxymorphone	Opana
	Methadone	Dolophine
	Tramadol	Ultram

Table 3

Benzodiazepines			
Drug/Drug Metabolite	Screen	Screen Cup	Confirmation
Alpha-hydroxyalprazolam	•	•	•
7-Aminoclonazepam	•	•	•
Chlordiazepoxide	•		
Diazepam	•	•	
Flunitrazepam	•	•	
Flurazepam	•		
Midazolam	•		
Nordiazepam	•	•	•
Oxazepam	•	•	•
Lorazepam	•		•
Temazepam	•	•	•

Some of the drugs NOT currently tested for by GML include carisoprodol, gabapentin, methylphenidate, pregabalin, Lunesta, Zolof, Clozapine, 'Bath Salts,' LSD (acid), fentanyl analogs, psilocybin (magic mushrooms), and mescaline (peyote). Testing for these drugs is available as send-outs to a reference laboratory.
